

**Developmental Supervision**  
**Post-Observation Form**

**Teacher:** \_\_\_\_\_

**Observer:** \_\_\_\_\_

**Date:** \_\_\_\_\_

**Time:** \_\_\_\_\_

**Goals of the Observer**

- |                                                                                 |
|---------------------------------------------------------------------------------|
| 1. To observe an area/aspect of your classroom that you have predetermined      |
| 2. To function in the capacity that you see best fit throughout the observation |
| 3. To collect and analyze data in order to provide meaningful feedback          |
| 4. To assist you in the overall goal of improving student learning              |

**Post-Observation Discussion**

1. Did you provide the observer with the experience that was expected as per the pre-observation discussion, highlighting the determined area of focus?

2. Did you allow the observer to function in the capacity that was discussed during the pre-observation discussion?

3. In regards to your area of focus, do you feel that the observed lesson was reflective of a typical experience in your classroom?

4. In regards to your area focus, what do you feel were your strengths during this observation?

5. In regards to your area of focus, were there any aspects that you feel were in need of improvement during this observation?

6. Do you think it would be beneficial for the observer to visit your classroom again to gather additional data on this area of focus?
